

HARSTRA

Function

The trolley is an option for our drying cabinet M45 and M45B. This trolley has place for a total of 5 baskets and can be used for transporting the baskets from the washing machine to the drying cabinet.

Description

For the trolley AM20, it is supplied without baskets. You can use and place the standard A03 baskets in this trolley. This baskets are delivered with a M45 or M45B drying cabinet.

The baskets can be slid from the trolley directly into the drying cabinet. After drying, the trolley can be placed back in front of the cabinet and the baskets can be slid back into the trolley from the drying cabinet.
